the saga continues....

Here is a letter that Jack Blair sent to all of the SSVEC employees on Jan, 22.  
Lot's of letters went into the Docket after that edict, and I recognize a lot of them as SSVEC Employees.

I think this is rather unscrupulous; actions not befitting a "cooperative". - or even a for profit company - taking actions against a segment of it's constituents.

Is this a legal activity? Why do they treat us as if we are not cooperators, only that we are in the way of this line.

Why not try to work out an alternative - there is one out there. -

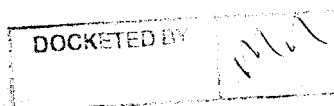

Debra White said in our community, in the beginning, and Jack Blair agreed with her, that this line was only for our present reliability needs.

Now they are saying it is for future reliability needs, they are not revealing what "future".
